

Product Name:	Fuel Leak Detection System
Product Model:	P-FLD2
Product Size:	88x72x59mm
Features:	compatibility P-LFP7000 fuel leak sensor cable only
Mounting method	35mm DIN(recommended)
Accuracy:	100%
Environmental rating Storage temperature:	-40°C~ 60°C (0°F ~140°F)
Operating temperature:	-20°C ~ 50°C (32°F ~122°F)
Operating humidity:	5%~95%(No condensation)
Power supply:	12-24V DC / 3A (Max)
Programming agreement:	MODBUS RTU
Relay contacts:	Normal open or normal closed, the user can choose freely; Leak alarm or leak and sensor failure alarm
Rated value	DC30V/3A
Main Features:	<p>1)12V-24V DC Power Supply,Please spot the positive (P+) and negative (P-).</p> <p>2)The relay output form is normally open and normally closed at the same time, which can be freely selected.</p> <p>3)Excellent anti-static and anti-surge technology to ensure reliable the products are working well.</p>
